

Clever finance while
staying flexible

Financial Solutions

for hardware and IT services

CLEVER INVESTMENT FINANCE WHILE STAYING FLEXIBLE

New IT systems are cost-intensive to buy. The necessary funds are not always directly available when hardware and software reach their limits, requiring systems to be expanded or forcing them to be replaced.

Technogroup offers you the most varied finance solutions so you will be able to act at all times, will be able to react flexibly to corporate changes and remain state-of-the-art technically.

WHICH IT ASSETS AND SYSTEMS CAN BE FINANCED?

Technogroup offers all-round solutions for flexibly financing hardware, software and services. For this purpose, it doesn't matter whether you need single systems at short notice, such as a new server or network components, or finance for operating systems and application software.

In addition to new ware, with us you can also acquire refurbished and immediately available hardware and finance it flexibly - with investment protection on request.

IT Hardware:

- Servers, storage, network components
- PCs & notebooks
- Printers
- Monitors
- Other peripherals

Software:

- Application software
- Operating systems (e.g. iOS)
- Virtualisation (VMware)

Services:

- Installation
- Implementation
- Training
- Managed services

Servicing:

- OEM maintenance agreements
- Third-party maintenance
- Hosting

OUR FINANCIAL SOLUTIONS

Make urgent investments that are important to your company promptly and with no complications with our finance possibilities:

Leasing

Loans

Rental

YOUR BENEFITS WITH TECHNOGROUP

It is important to us to meet your individual requirements and find solutions so your IT remains the high-performance backbone of your company. Benefit from:

Financing models **at fair conditions and terms**

Budget control over the entire term of the agreement

Complete solutions for hardware, software, services and finance from one provider

Preserving credit lines and the **equity ratio** thanks to even monthly instalments

Regularly renewing your IT technology

Quick decision-making ability

Updating and adjusting existing IT systems

Prompt use of the new equipment

LEASING:
 Finance and benefit immediately

With leasing, the entire investment does not have to be provided at the beginning:

- You conveniently finance your IT system in small instalments.
- The fee is set according to the value of the equipment, leasing term and lessee's creditworthiness

Your benefits:

- ✓ You can use the benefits starting from the payment.
- ✓ After the end of the term the equipment remains the property of the leasing company.

CREDIT/LOAN:
 Buy equipment directly

Thanks to a loan you will be able to buy the products you need now immediately.

- The company is given the money needed to buy the products.
- You pay the money back bit by bit.

Your benefits:

- ✓ Your company directly owns the equipment.
- ✓ You can use the equipment immediately just as you wish.
- ✓ The borrower accounts for the system.

HIRING:
 Hiring instead of buying

Hiring hardware makes sense if the components will not be used long-term.

- Shortages can be overcome at short notice.
- Equipment is provided in return for a monthly and individually set rental fee.
- The equipment remains the property of the rental company.

Your benefits:

- ✓ Unlimited terms
- ✓ Flexible notice periods
- ✓ After the expiry of the rental term the hardware will be replaced by state-of-the-art, equipment if a new contract is agreed.

HIRE PURCHASE:
 Hiring and buying

Hire purchase of hardware makes sense for small- and medium-sized companies.

- Fixed contract terms
- The VAT on the entire rental amount is due for payment with the first hire-purchase instalment.
- The hire purchaser is the beneficial owner of the item.
- The hire purchaser accounts for the item.
- Depreciation is tax deductible.
- Automatic, full transfer of ownership on payment of the last instalment.
- No flexibility for replacement options.

Your benefits:

- ✓ The hirer does not have to take out a loan.
- ✓ No interest costs that banks would charge are incurred.
- ✓ Equity- and liquidity-preserving finance form.

REACH YOUR FINANCE SOLUTION IN JUST A FEW STEPS WITH EVERNEX & TECHNOGROUP

As part of Evernex, our know-how is based on almost 30 years of financing expertise:

- Sustainability and preserving the environment, energy and resources as part of our multi-vendor business model.
- Thanks to third-party maintenance, using hardware in data centres well beyond the end of service life date of the OEMs.
- Not only will this protect your budget, but also the environment.

Do you want to reach one of the following corporate targets, but this is causing you technical or financial challenges?

- Staying performant
- Being able to adjust quickly to new requirements
- Covering seasonal output peaks

We'll be pleased to support you worldwide with the technical and budgetary optimisation of your IT operations. Make an appointment now!
